

II1300 Engineering Skills 7.5 credits

Ingenjörsmetodik

This is a translation of the Swedish, legally binding, course syllabus.

Establishment

The official course syllabus is valid from the autumn semester 2021 in accordance with Head of School decision: J-2021-0878. Decision date: 15/04/2021

Grading scale

P, F

Education cycle

First cycle

Main field of study

Technology

Specific prerequisites

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

Having passed the course, the student should be able to:

- reflect on the engineer's professional role and approach in inter alia ethical, environment and sustainability issues
- reflect on and apply basic engineering methods to plan and carry out a smaller IT project in a group

in order to

- obtain knowledge of engineering operational methods and the engineer's professional role
- obtain basic skills in using different engineering tools with an emphasis on project methodology, presentation technique, and the computer as a working tool.

Course contents

The professional role as engineer

- Interview of an engineer

To work in project

- Project methodology
- group dynamics
- Project Management
- Project tools
- Project Work

Presentation and information techniques

- Information retrieval
- Report writing
- Oral presentation techniques
- Computer-based presentation tools
- Web publishing

To use the computer as a working tools

- Word processing and calculating programs
- Programs for presentation and drawing

Examination

- INL1 - Assignments, 4.5 credits, grading scale: P, F
- PRO1 - Project, 3.0 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

If the course is discontinued, students may request to be examined during the following two academic years.

Other requirements for final grade

Active participation in seminars and presentations.

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
